Pre-Installation

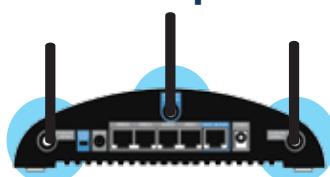

A - Determine a location

Place the repeater in a location where it can receive a strong signal from your original wireless source to obtain the best performance

Please make sure there is an available WiFi signal for the Smart Repeater to pull from. The Smart Repeater will not repeat without a signal to repeat

B. Setup the Device

A. Attach the Antennas to the Repeater.

Locate the 3 antennas from your packaging and attach them to the Hi-Gain Wireless-N Dual Radio Smart Repeater.

B. Plug in the Power Adapter.

B. Plug in the Power Adapter.

When you have completed the antenna setup, plug in the included power adapter into the nearest power outlet.

C. Access the Repeater

You must access the repeater to run the initial configuration.

Wireless: If you have a wireless enabled device, please proceed to Step 1A for using a laptop/desktop or Step 1B if using an iPad or iPhone.

Wired: If you don't have a wireless enabled device, use an ethernet cable and connect your laptop or through one of the four LAN ports located on the back, Then, proceed to Step 1C.

Package Contents

- 1x Wireless-N Dual Radio Smart Repeater
- 1x Power Adapter
- 1x Ethernet Cable
- 1x Setup CD-ROM
- 3x Wi-Fi Antennas

Requirements

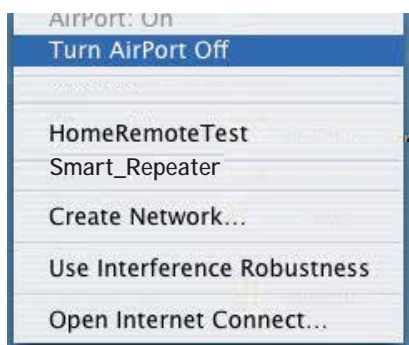

- Wired or Wireless Internet Connection
- A Network Enabled Device (Computer, Smart Phone, or Tablet)
- Power Outlet

A. Configuring your Smart Repeater using a Wireless Laptop/Desktop

Using a computer with wireless networking access, connect to the Repeater by searching for the wireless network named: **Smart_Repeater**

For Mac Users

Click on the Wi-Fi icon in the "apple" toolbar. Click on the "Smart_Repeater" network from the drop-down menu. Then Continue to Step 2A.

For Windows Users

When the "Network Availability" window pops up on the "Start" toolbar, Click on the "Connect to a network" link. Once the "Connect to a network" window opens, Select on the "Smart_Repeater" Network. Then Continue on to Step 2A.

B. Configuring your Smart Repeater using an iPad® or iPhone®

Make sure JavaScript is On: Go to Settings >

Select Safari (a) > make sure JavaScript is ON (b).

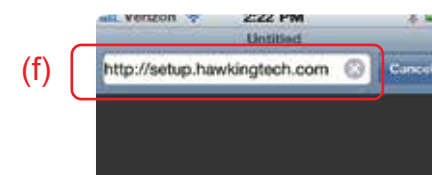

Go back to Home Screen > Select Settings > In Wi-Fi Networks, Select Smart Repeater (c). Make sure your Wi-Fi is connected to Smart Repeater(d).

Go back to Home Screen(e) > open your Safari Browser

Then, type in <http://setup.hawkingtech.com> (f). Continue on to Step 2B.

C. Configuring your Smart Repeater using Wired Connection

For wired connections, use the included Ethernet cable to connect to one of the four 'wired' ports on the back of the Repeater. Then Continue to Step 2A.
