Wireless Multimedia Control Pad

MODEL: **HWMP1**

PACKAGE CONTENTS:

- 1 x Handheld Multimedia Control Pad
- 1 x 23-inch (60cm) USB Cable
- 1 x USB Dongle
- 1 x Quick Start/ User's Manual

The Hawking HWPM1 Wireless Multimedia Control is a palm-sized touch pad remote that allows you to control your laptops, desktops, gaming consoles, and internet TVs wirelessly!

Technology
The advanced G-sensor, an accelerometer widely used by popular devices and console controllers, senses your movement through acceleration and gravitation and allows you to control your system with slight movement. The 38-key back-lit touch pad fits snuggly into your palm and lets you control your system effortlessly and wirelessly from a distance.

Flexible and Convenient
Using the RF transceiver, the Wireless Control connects wirelessly from up to 65 ft (20m) away. The Controller uses a lithium ion battery and is rechargable through a USB cable. The unit itself has low power consumption and has a stand-by time of over 100 days.

Easy to use
The Wireless Control Pad is plug- and- play and no driver is required. Simply connect the included dongle to your system's USB port and use the Wireless Control Pad to navigate your computer from your seat while conducting a meeting or seemlessly maneuver your gaming console or internet TV wirelessly while lounging around your home.

FEATURES

- Advanced RF 2.4GHz technology allows Multimedia Control Pad from any direction or angle
- Wireless Range of up to 65ft (20m) in an open space
- The Touch-Pad makes cursor movement smooth, easy and comfortable
- Back-lit keyboard lets you control your system even in a dark environment
- Internal G-sensor automatically adapts itself to orientation changes and rotates pictures with one simple movement
- High capacity rechargeable battery lasts over 100 days and charges automatically when connected through any USB port
- Plug-and-play installation automatically integrates your computer and device without any extra drivers
- Compact and travel-friendly with built-in dongle storage slot

Works with
Home Theater PC
Microsoft Xbox 360™
Sony PlayStation® 3
Nintendo Wii™
